** Lesser and Common Redpoll were 'split' in 2000. Redpolls ringed before the 'split' are assumed to have been Lessers unless they were noted, when ringed, as being Mealy (Common) or are considered to be Commons on biometrics.

*** Steppe Grey Shrike is now considered to be a subspecies of Great Grey Shrike and therefore the bird ringed in 1986 is now shown in the Great Grey Shrike totals.
